

D-Wrap

ATWELL
LABELLERS

Automatic Labelling System for multi surface pack decoration

**Designed for
your application.**

Why the D Wrap Labeller?

- > Built with an industrial environment in mind with easy wipe stainless steel surfaces.
- > Easy to adjust label position due to the directly accessible spindles.
- > Almost silent performance due to quiet processors.
- > Can run in either a right to left or left to right position.
- > Add extras including a thermal inkjet or thermal transfer printer for direct marking or label printing.
- > Adjustable conveyor speeds to suit your product.
- > 5-30 ppm depending on product and label length.
- > Up to 25 stored programmable memory files for quick and accurate changeovers.
